Lakers Sports Club's 26th Annual Golf Outing Helping Mountain Lakes High School students achieve athletic and academic excellence!

Our Mission

Founded in 1965, the Lakers Sports Club helps provide financial support and services to the athletic programs and recognizes the achievements of individual and team efforts. In addition to providing scholarships for student athletes and student scholar athletes, the Lakers Sports Club also strives to address the needs of the various athletic programs at our high school to the extent of its financial ability.

The Lakers Sports Club (LSC) provides funding to all sports programs so that they may take advantage of new technology and research in sports training and fitness.

Over the last 15 years, Lakers Sports Club has donated over \$1,500,000 to Athletic programs which directly benefit the student athletes of Mountain Lakes High School.

Without the generosity of our members, friends and community supporters, the Lakers Sports Club could not fulfill our mission.

The club strives for 100% participation from student-athlete families and welcomes anyone who wishes to be part of the continued success of our boys and girls athletic teams.

Hope to see you there and thank you for your support!
