The US Surgeon General recently issued a critical warning about the harms of Social Media on the wellbeing of our teenagers. Our school communities are reeling from the shocking impact of dangerous On-Line challenges. A recent FBI alert cited the alarming prevalence of online predators targeting the most vulnerable amongst us. This is your opportunity to get ahead of these pressing issues, and become the protector that your family needs.

Our nationally recognized instructor will expose the terrible dangers of screen-time. He'll then provide you safe and simple ways to take control back from the Big Tech Threats that are facing your family. Don't miss this limited opportunity. Attendance is FREE for you!

It's time to take back control over the digital dangers in your kid's life.
