Seeking Sponsors and Support for Annual Fundraiser

The Mountain Lakes Educational Foundation (MLEF) is hosting its Annual Fundraiser. This very important event will raise money for grants that enhance the education of community, children, and residents. MLEF grants are critical to providing enriched learning opportunities that fall outside of regular budgetary constraints of the school district. Support from the local community is needed to make it a success. It has been attended by hundreds of residents and is a great way to demonstrate your commitment to the ML community.

In the last few years, your generosity has allowed MLEF to award over \$300,000 to all four schools in our district and the ML Makerspace Club. Last year, the MLEF issued 21 Microgrants and 13 Standard Grants given directly to teachers.

We're excited about future additions to our community that we hope you will consider supporting!
